Fourth Annual Message of President Grant.

To the Senate and House of Representatives:

In transmitting to you this, my fourth annual message, it is with thankfulness to the Giver of all good that, as a nation we have been blessed for the past year with peace at home, peace abroad, and a general prosperity vauchsafed to but few peoples.

With the exception of the recent devastating fire which swept from the earth, with a breath as it were, millions of accumulated wealth in the city of Boston, there has been no overshadowing calamity within the year to record. It is gratifying to note how, like their fellow-citizens of the city of Chicago, under similar circumstances a year earlier, the citizens of Boston are rallying under their misfortunes, and the prospect that their energy and perseverance will overcome all obstacles, and show the same prosperity soon that they would had no disaster befell them. Otherwise we have been free from pestilence, war, and calamities which often overtake nations; and as far as human judgment can penetrate the future, no cause seems to exist to threaten our present peace.

When Congress adjourned in June last, a question had been raised by Great Britain and was then pending, which for a time seriously imperiled the settlement of friendly arbitration of the grave difference between this Government and that of her Britannic Majesty, which by the Treaty of Washington had been referred to the Tribunal of Arbitration, which met at Geneva, in Switzerland.

The arbitrators, however, disposed of the question which had jeoparded the whole of the treaty, and threatened to involve the two nations in most unhappy relations toward each other, in a manner entirely satisfactory to this Government, and in accordance with the views and the policy which it had maintained.

The Tribunal which had convened at Geneva in December concluded its laborious session on the 14th day of September last, on which day, having availed itself of the discretionary power given to it by the treaty, to award a sum, in gross, it made its decision, whereby it awarded the sum of fifteen mollions five hundred thousand dollars in gold, as the indemnity to be paid by Great Britain to the United States, for the satisfaction of all the claims referred to in its consideration. This decision happily disposes of a longstanding difference between the two Governments, and in connection with another award made by the German Emperor, under a reference to him by the same treaty, leaves these two Governments without a shadow upon the friendly relations which it is my sincere hope may forever remain equally unclouded.

The report of the agent of the United States appointed to attend the Geneva tribunal, accompanied by the protocols of the proceedings of the arbritrators, the arguments of the counsel of both Governments, the award of the tribunal, and the opinions given by the several arbitrators, is transmitted herewith

I have caused to be communicated to the heads of the three friendly Powers who complied with the joint request made to them under the treaty, the thanks of this Government for the appointment of arbitrators made by them respectively, and also my thanks to the eminent personages named by them, and my appreciation of the dignity, patience, impartiality, and great ability with which they discharged their arduous and high functiong.

Her Majesty's Government has communicated to me the appreciation by her Majesty of the ability and indefatigable industry displayed by Mr. Adams, the arbitrator named on the part of this Government, during the protracted inquiries and discussions of the tribunal. I cordially unite with her Majesty in this appreciation.

It is due to the agent of the United States before the tribunal to record my high appreciation of the marked ability, unwearied patience, and the prudence and discretion with which he has conducted the very responsible and delicate duties committed to him, as it is also due to the learned and eminent counsel who attended the tribunal on the part of this Government, to express my sense of the talents and wisdom with which they brought to bear in the attainment of the result so happily reached.

It will be the province of Congress to provide for the distribution among those who may be entitled to it of their respective shares of the money to be paid.

Although the sum awarded is not payable until a year from the date of the award, it is deemed advisable that no time be lost in making a proper examination of the several cases in which indemnification may be due. I consequently recommend the creation of a Board of Commissioners for the purpose.

By the 34th article of the Washington Treaty the respective claims of the United States and of Great Britain, in the construction of the treaty of the 15th of June, 1846, defining the boundary line between their respective territories, were submitted to the arbitration and award of his Majesty the Emperor of Germany, to decide which of those claims is most in accordance with the true interpretation of the treaty of 1846.

His Majesty the Emperor of Germany having been pleased to undertake the arbitration, has the earnest thanks of this Government and of the people of the United States, for the labor, pains and care which he has devoted to the consideration of this long pending difference. I have caused an expression of my thanks to be communicated to his Majesty. Mr. Bancroft, the representative of this Government at Berlin, conducted the case and prepared the statement on the part of the United States, with the ability that his past services justified the public in expecting at his hands. As a member of the Cabinet at the date of the treaty which has given rise to the discussion between the two Governments—as the Minister to Great Britain when the construction now pronounced unfounded was first advanced, and as the agent and representative of the Government to present the case and to receive the awards—he has been associated with the question in all its phases; and in every stage has manifested a patriotic zeal and earnestness in maintenance of the claim of the United States. He is entitled to much credit for the success which has attended the submission.

After a patient investigation of the case and of the statements of each party, his Majesty the Emperor, on the 21st day of October last, signed his award in writing, decreeing that the claim of the Government of the United States, that the boundary line between the territories of her Britannic Majesty and the United States should be drawn through the Haro channel, is most in accordance with the true interpretation of the treaty concluded on the 15th of June between the Governments of her Britannic Majesty and of the United States. Copies of the "case" presented on behalf of each government, and of the statement in reply of each, and a translation of the award are transmitted herewith.

This award confirms the United States in their claim to the important archipelego of islands lying between the continent and Vancouver's Island, which for more than 26 years (ever since the ratification of the treaty) Great Britain has contested, and leaves us, for the first time in the history of the United States as a nation, without a question of disputed boundary between our territory and the possessions of Great Britain on this continent.

It is my grateful duty to acknowledge the prompt, spontaneous action of her Majesty's Government in giving effect to the award. In anticipation of any request from this Government, and before the reception in the United States of the award signed by the Emperor, her Majesty had given instruction for the removal of her troops which had been stationed there, and for the cessation of all exercise or claim of jurisdiction, so as to leave the United States in the exclusive possession of the lately disputed territory.

I am grateful to be able to announce that the orders for the removal of the troops have been executed, and that the military joint occupation of San Juan has ceased. The Islands are now in the exclusive possession of the United States.

It now becomes necessary to complete the survey determination of that portion of the boundry line through the Haro chanel, upon which the commisson which determined the remaining part of the line were unable to aggree. I recomend the appointment of a commission to act jointly with one which may be named by her Majesty for that purpose.

Experience of the difficulties attending the determination of our admitted line of boundery, after the occupation of the territory and its settlement by those owing allegiance to the respective Governments, points to the importance of establishing by natural objects or other monuments the actual line between the territory acquired by purchases from Russia, and the adjoining possessions of her Britanic Majesty. The region is now so sparcely occupied that no conflicting interests of individuals or of jurisdiction are likely to interfere to the delay or embarrassment of the actual location of the line. If deferred until population shall enter and occupy the territory, some trival contest of neighbors may again array the two Governments in antagonism. I therefore recommend the appointment of a commission to act jointly with one that may be appointed on the part of Great Brittain to determine the line between our territory of Alaska and the coterminous possessions of Great Britian.

In my last annual message I recommended the legislation necessary on the part of the United States to bring into operation the articles of the Treaty of Washington of May 8, 1871, relating to the fisheries and other matters touching the relations of the United States toward the British North American possessions, to become operative so soon as the proper legislation should be had on the part of Great Britain and its possessions.

The legislation on the part of Great Britain and its possessions had not then been had, and during the session of Congress a question was raised which for the time raised a doubt whether any action by Congress in the direction indicated would become important. This question has yet been disposed of, and I have received notice that the Imperial Parliament, and the Legislatures of the Provincial Government, have passed laws to carry the provissions of the treaty on the matters referred to into operation. I therefore recomend your early adoption of the legislation in the same direction necessary on the part of this government.

The Joint Commission for determining the boundry line between the United States and the British possessions, between the Lake of the Woods and the Rocky Mountains, has organized and entered upon its work. It is desirable that the force be increased, in order that the completion of the survey and determination of the line may be the sooner attained. To this end I recomend that a sufficient appropriation be made.

With France, our earliest ally—Russia the constant and steady friend of the United States—Germany, with whose government and people we have so many causes of friendship and so many causeses of friendship and so many common sympathies, and the other powers of Europe, our relations are maintained on the most friendly terms.

Since my last annual message the exchange has been made of the ratifications of a treaty with the Austro Hungarian Empire relating to naturalization; also of a treaty with the German Empire respecting consuls and trade marks; also a treaty with Sweiden and Norway, relating to naturalization; all of which treaties have been duly proclaimed.

Congress at its last session having made an appropriation to defray the expense of commissioners on the part of the United States, to the International Statistical Congress at St. Petersburg, the persons appointed in that character proceeded to their destination and attended the sessions of the Congress. Their report shall in due season be laid before you. This Congress meets at intervals of about three years, and has held its sessions of Europe. I submit to your consideration the propriety of extending an invitation to the Congress to hold its next meeting in the United States. The Centenial celebration to be held in 1876 would afford appropriate occasion for such meeting.

Preperations are making for the International Exhibition to be held during the next year in Vienna on a scale of very great magnitude. The tendency of these expositions is in the direction of advanced civilization, and of the elevation of industry and of labor, and of the increase of human happiness as well as greater intercourse and good will between nations.

As this Exposition is the first that will have been held in Eastern Europe, it is believed that American inventors and manufacturers will be ready to avail themselves of the opportunity for the presentation of their productions, if encouraged by proper aid and instruction.

At the last session of Congress authority was given for the appointment of one or more agents to represent the Government at the Exhibition. The authority thus given has been exercised, but, in the absence of any appropriation, there is danger that the important benefits which the occasion offers will, in a large degree be lost to citizens of the United States. I commend the subject strongly to your consideration, and recomend that an adequate appropriation be made for the purpose. To further aid American exhibitors at the Vianna Exhibition I would recomend, in addition to an appropriation of money, the Secretary of the Navy be authorized to fit up two naval vessels to transport between our Atlantic cities and Trist, or the most convenient part of Vienna, and back, their articles of exhibition.

Since your last session, the President of the Mexican Republic, distinguished by his character and by his service in this country, has died. His temperary successor has now been elected with great unanimity by the people, a proof of confidence on their part of his patrotism and wisdom, which, it is believed, will be confirmed by the results of his administration, It is particularly desirable that nothing should left undone by the Government of either Republics to strengthen their relations as neighbors and friends.

It is much to be regretted that many lawless acts continue to disturbe the quiet of the settlements on the border between our territory and that of Mexico and that complaints of American citizens in various parts of the country are made.

The revolutionary condition in which the neighboring republic has been involved in has, in some degree contributed to this disturbance. It is to be hoped that with a more settled rule of order through the Republic, which may be expected from the present Government, the acts of which just complaint is made, will cease.

The proceedings of the commission under the convention with Mexico of the 4th of July, 1868, on the subject of claims, have unfortunately been checked by an obstacle for the removal of which measures have been taken by the two Governments which it is believed will prove sucessful.

The commissioners appointed pursuant to the joint resolution of Congress of the 7th, of May last to inquire into depredations on the Texas frontier have diligently made investigations in that quarter. Their report upon the subject will be communicated to you. Their researches were necessarily imcomplete, partly on account of the limited apropriation made by Congress. Mexico, on the part of that Government, has appointed a similar commission to investigate these outrages. It is announced officially, but the press of that country states that the fullest investigation is desired, that the co-operation of all parties concerned is invited to secure that end. I therefore recommend that a special appropriation be made at the earliest day practicable to enable the commissioners on the part of the United States to return to their labors without delay.

It is with regret that I have again to announce a continuance of the disturbed condition of the Island of Cuba. No advance toward the pacification of the discontented part of the population has been made, while the insurection has gained no advantage and exhibits no more of the elements of power, or of the prospects of ultimate success than were exhibited a year ago. Spain, on the other hand, has not succeeded in its repression, and the parties stand apparently in the same relative attitude which they have occupied for a long time past,

This contest has lasted now for more than four years. Were it seen at a distance from our neighborhood, we might be indifferent to its result, although humanity could not be unmoved by many of its incidents whereever they might occur. It is however at our doors.

I canuot doubt that the continued maintainance of slavery in Cuba is among the strongest inducements to the continuance of this strife. A terrible evil. The abolition of slavery and the introduction of other forms in the administration of the Government in Cuba would not fail to advance the restoration of peace and order. It is greatly to be hoped that the present liberal government of Spain will voluntarily adopt this view.

The law of emancipation which was passed more than two years since has remained unexecuted in the absence of regulations for its enforcements. It was but a feeble step towards emancipation, but it was the reognition of right, and was hailed as such, and exhibited Spain in harmony with sentiments of humanity and of justice, and in sympathy with the powers of the Christian and civilized world.

Within the past few weeks the regulations for carrying out the law of emancipation have been announced, giving evidence of the sincerity of intention of the present Government to carry into effect the law of 1870. I have not failed to urge the consideration of the wisdom, the policy and the justice of a more effective system for the abolition of the great evil which oppresses a race, and continues a bloody and destructive contest close to our border, as well as the expediency and the justice of conceding reforms of which the propriety is not questioned.

Deeply impressed with the conviction that the continuance of slavery is one of the most active causes of the continuance of the unhappy condition in Cuba, I regret to believe that citizens of the United States, or those claiming to be such, are large holders in Cuba of what is there claimed as property, but which is forbidden and denounced by the laws of the United States. They are thus in defiance of the spirit of our own laws, contributing to the continuance of this distressing and sickening contest. In my last annual message I referred to this subject, and I again recomend such legislation as may be proper to denounce and if not prevent, at least to discourage, American citizens from holding or dealing in slaves.

It is gratifying to annonnce that the ratificationon of the convention concluded under the auspices of the Government, between Spain on the one part, and the allied Republicans of the Pacific on the other, providing for an armistice, have been exchanged. A copy of the instrument is herewith submitted. It is hoped that this may be followed by a permanent peace between the same parties.

The differences which at one time threatened the maintainance of peace between Brazil and the Argentine Repnblic, it is hoped, are in the way of satisfactory adjustment. With these States, as with the Republics of Central and South America, we continue to maintain in the most friendly relations.

It is with regret, however, I announce that the Government of Venezuela has made no further payments on account of the awards under the convention of the 25th, of April, 1866. That republic is understood to be now almost, if not quite, tranquillized. It is hoped, therefore, that it will lose no time in providing for the unpaid balance of its debt to the United States, which, having riginated in injuries to our citizens by Venezuelan authorities, and having been acknowledged pursuant to a treaty in a most solem form known among nations, would seem to deserve a preferance over different origin and contracted in a different manner. This subject is again recommended to the attention of Congress for such action as may be deemed proper.

Our treaty relations with Japan remain unchanged. An imposing embassy from that interesting and progressive nation visited this country during the year that is passing; but being unprovided with powers for the signing of a convention in this country no conclusion in that direction was reached. It is hoped, however, that the interchange of opinions which took place during their stay in this country has led to a mutual appreciation of the interests which may be promoted when the revison of the existing treaty shall be undertaken.

In this connection I renew my recommendation of one year ago, that "to give importance and to add to the efficiency of our diplomatic relations with Japan and China, and to further aid in retaining the good opinion of those people, and to secure to the United States its share of the commerce destined to flow between those nations and the balance of the commercial world, an appropriation be made to support at least four American youths in each of those countries, to serve as a part of the official family of our ministers there. Our representatives would not even then be placed upon an equality with the representatives of Great Britain and some other Powers. As now situated, our representatives in China and Japan have to depend, for interpreters and translators, upon natives of those countries, who know our language improperly, or procure for the occasion the services of employees in foreign business houses or the interpreters to other foreign ministers.

I renew the recomendation made on a previous occasion, of the transfer to the Department of the Interior, to which they seem more appropriately to belong, of all the powers and duties in relation to the Territories, with which the Department of State is now charged by law or by custom.

Congress from the beginning of the government has wisely made provision for the release of distressed seamen in foreign countries. No similar provision however has hitherto been made for the relief of citizens in distress abroad other than seaman. It is understood to be customary with other governments to authorize consuls to extend such relief to their citizens or subjects in certain cases. A similar authority and an appropriation to carry it into effect are recomended in the case of citizens of the United States destitute or sick under such circumstances. It is well known that such citizens resort to foreign countries in great numbers. Though most of them are able to bear the expenses incident to locomotion, there are some who, through accident or otherwise, become peniless, and have no friends at home able to succor them. Persons in this situation must either perish, or cast themselves upon the charity of foreigners, or be relieved at the private charge of our own officers, who usually, even with the most benevolent dispositions, have nothing to spare for such purposes. Should the authority and appropriation asked for be granted, care will be taken to carry the beneficence of Congress into effect, that is shall not be unnecessarily or unworthily bestowed.

[The President then refers to the Reports and condition of the Treasury, War, Naval, Post office and Interior Departments. On the subject of taxation he says:]

With the great reduction in taxation by the acts of Congress at its last session, the expenditures of the government in collecting the revenue will be much reduced for the next fiscal year. It is very doubtful, however, whether any further reduction of so vexatious a burden upon our people will be practicable for the present. At all events, as a measure of justice to the holders of the nation's certificates of indebtedness, I would recommend that no more legislation be had on this subject, unless it be to correct errors of omission or commission in the present laws, until sufficient time has elapsed to prove that it can be done and still leave sufficient revenue to meet current expenses of government, pay interest on the public debt, and provide for the sinking fund established by law. The preservation of our national credit is of the highest importance. Next in importance to this comes a solemn duty to be provided with national currency of fixed unvarying value, as compared with gold, and as soon as practicable, having due regard for the interests of the debtor class and the vicissitudes of trade and commerce, convertible into gold at par.

DEPARTMENT OF JUSTICE.

Detailed statements of the disbursement through the Department of Justice will be furnished by the report of the Attorney General, and though these have been somewhat increased by the recent acts of Congress "to enforce the rights of citizens of the United States to vote in the several States of the Union," and "to enforce the provisions of the fourteenth amendment to the Constitution of the United States," and the amend

perfect remedy for the existing evils until they have been thoroughly tested by actual practice and amended according to the requirements of the service.

During my term of office it shall be my earnest endeavor to apply the rules as to secure the greatest possible reform in the civil service of the Government, but it will require the direct action of Congress to render the enforcement of the system binding upon my successors, and I hope that the experience of the past year, together with appropriate legislation by Congress, may reach a satisfactory solution of this question, and secure to the public seevice for all time a practical method of obtaining faithful and efficient officers and employees.

U. S. GRANT.

EXECUTIVE MANSION, *December* 2, 1872.

Synopsis of the Report of the Secretary of the Treasury.

The Secretary again recomends the passage of the bill to amend and consolidate the navigation and customs collection laws of the United States. As the leading pursuits of this country are now stronger than ever before in possession of adequate capital and a supply of inteligent laborers, there may be a moderate reduction from time to time in the rate of duties as the diminishing of government expenses shall permit, without either alarming capital or injuring labor. He says the circulation of the Banks should be fixed and limited, and that power to change the volum of paper in circulation within the limits established by law, should remain in the Treasury Department. A degree of flexibility in the volume of the currency is essential for two reasons. First, the business of the Department cannot be transacted properly if a li nit is fixed and the power to raise the circulation above or reduce it below that limit is denied; secondly, there is a necesity every autum for moving the crops without delay from the South and West to the seaboard, that they may be on hand for export and consumption as wanted. The problem is to find a way of increasing the currency for moving the crops, and diminishing it at once when that work is done. This is a necessary work, and inasmuch as it cannot be confined to the banks, the power shonld be reposed in the Treasury Department. Believing that the country is not prepared to stand the policy of contraction, the Secretary considers the means by which the value of our currency may be improved. The baisis of a policy of improvement must be found in a study refusal to add to the paper circulation until it is of the same value essentially as a coin; this being accepted as the settled purpose of the country, there can be no permanent increase of the difference between paper and coin, and an opertunity will be given for the influence of natural causes, tending upon the whole to a better financial condition. All legislation limited in its operation to the paper issues of the Government, whether bearing interest or not, and which in its effects shall tend to diminish the market value of a coin, will be found upon analysis to contain such a plan, will prove ineffectual. The Secretary, without proceeding to the discussion of the general subject of resuming specie payments, thinks all will have been gained that is of value when the Treasury shall be prepared to pay the demand notes of the Government in coin, and the banks shall be prepared to pay their notes either in coin or legal tender notes; and then our good fortune will clearly appear in this—that our paper currency is not exclusively of National Bank notes, nor exclusively of United States notes.

It is said there are only three ways of getting out of a scrape—wirte out, back out, and to keep out, but Hesikire Po says thar R 4 ways, fur the gal what was his gal kicked out:

But first, womanlike, she nobly planned,
To warm, to comfort. and command,
And womanlike in a moment relented—
The cords of prommis and love away
The bridal ring from her hand
Looking for a better day.

But it is not much this world can give
With all its noble art,
And gold or genius are not the things,
To satisfy the heart.
"Then! beware! my lite haird girl,
There's danger in prommis's not fulfilled and glee—
Oh! curb, in time, thy wishes wild,
For a life so gay and free.

To-morrow you look at the mirror
Find the leaf of the rose grown van—
The circle of beaus grown thin, and in terror
Then fault thyself not man.
To-morrow! no mother, no father—
To-day no ring on thy hand
To-morrow a wandering lonely—
In a dim and distant land.

"Well, mamma would not let me marry
She said he is too old—
And soon as he pops his ugly face in the door
At me he will begin to scold.
Mamma says his time enough—
And it would be a shame,
For I am not quite twenty,
Time enough to change my name.
I hate mas sermonizing—
For my charms begin to fade,
And if I marry with my man,
I am sure to be an old maid,
I wonder if he would call time back,
If he thought it was not in vain,
Maby, he would like to take me and Anna by the hand
And run up the hill again."

Hesikire Po says thar is a very little difference between a man in love and a man in debt, fur you r bound to make promissory notes; the fellow prommis 2 cherish and she puts his name in her book. A man kant sleep if he is in love or debt. Love is uncalculating, and debt holdeth no reckoning. The man who oeth muny is in need uv brass, and so is the man who poppeth the question B 4 a man picks out a wif he shud see the culler uv her Is, as thar R sunthing in blue Is, gra Is, black Is &c., &c., which I will giv 2 the publik in short. A Universal Article of Faith.—In these days of religious contention it has been thought impossible to indicate an article of faith upon which *all* sects and classes were united. There is one, however, and are very notable one too, viz: a belief which is implicit and universal in the paramount efficacy of that matchless Household Tonic and Recuperant, Plantation Bitters. The constantly increasing patronage which it receives has, it is true, excited the petty envy of certain splenetic advertisers of pinchbeck paueceas, who hope to make a market for their own stagnant, watery wares, by decrying all spirituous medicinal preparations. But the public can stomach neither their arguments nor their potations, and consequentlo reject these very weak imitations of the enemy as entirely too thin!

THE SENATORIAL STRUGGLE OVER —JUDGE MERRIMON ELECTED.

The Senatorial contest is over and the regular Democratic nominee has been defeated. The Republicans being in a decided minority could not elect their first choice, Hon. JOHN POOL, but by uniting with the friends of the independent candidate, Hon. AGUSTUS S. MERRIMON, they were able to defeat that notorious demagogue ZEBULON B VANCE. The Republican strength in both Houses was just 72. To elect 86 votes were necessary. The vote in the Senate stood 26 for VANCE and 24 for MERRIMON. In the House 54 for VANCE and 62 for MERRIMON. So Judge MERRIMON owes his election to the Republicans. He knows this, appreciates it and will not forget it. It is a defeat to the Democracy and they keenly feel it.

Judge MERRIMON is a man of culture and ability. He is strongly in favor of internal improvements, is desirous of building up our State by immigration, and he will exert his influence in favor of our great industrial interests. His sympathies are not by any means with the Bourbon Democracy, nor will he henceforth affiliate with the men or party stubbornly standing in the way of progress.

HORACE GREELEY.

No American has died since the foundation of the Republic who has been so generally lamented and to whose memory the great people of all classes in all sections have paid such universal and generous tribute as HORACE GREELEY. Indeed he is mourned by a whole nation, and as we look over our exchanges and read the eulogies from all sides we are forcibly made to feel that in the presence of death the passions and prejudices of he hour are hushed; that there is a truce among partisans, and that mercy which we all need, stands with pleading eyes by the side of justice. That he was great, and good and honest all freely admit, and while he could not under any circumstances have gained the assent of his fellow citizens to his fitness for the Presidency, the universal grief of the nation over his death and the spontaneous tributes from pulpit and press demonstrate that he had the confidence and admiration of the country in a degree seldom attained by any man. And he richly merited it, not alone as the acknowledged leader of the vocation of his life, that of the greatest journalist of his time, but because of his great intellect, singularly clear, vigorous and bright, and because of his eminent services in behalf of Philanthropy and Freedom. His name was familiar in the remotest hamlets of the land. He was the poor man's friend, the tribune of the masses, the exponent of popular sympathies, the genius of Liberty and Progress.

He is gone. A nation grieves his departure. The blessings of a united people follow him.

"His ashes in a peaceful urn shall rest
His name a great example stands, to show
How strangely high endeavors may be blest."

THE NEW MINISTER TO RUSSIA.

Hon. James L. ORR, of South Carolina has been appointed by the President to be Minister to Russia; in place of exgovernor CURTIN resigned.

Mr. ORR was, before the war, a prominent Democratic member of Congress, and was the Democratic Speaker who was elected to preside over the House preceeding Gen. BANKS. When the Rebellion broke out he was an ardent advocate of Secession, and occupied a seat in the Confederate Senate during the the whole war. Judge ORR was one of the first men in the South to accept the situation after Lee's surrender, and was appointed by Andrew Johnson Provisional Governor of South Carolina. This position he held until the State was reconstructed. He has, since the war, acted with the Republican party.

THE PRESIDENT'S MESSAGE.

To the exclusion of our usual variety, we this week give our readers a full synopsis of the excellent message of President GRANT. It is able, statesmanlike and fully up to the wants of the present time. It is a comprehensive and admirably condensed review of the condition progress and prospects of our great Republic. As a State paper it will compare favorably with any that have preceeded it.

The death of Mr. GREELEY placed his Electors in a quandary. Those of Maryland and Tennessee cast their votes for Thos. A. Hendricks of Ind. Georgia divided—6 for B. Gratz Brown, 3 for Horace Greeley and 2 for Charles Jenkins of Ga. In Arkansas there is a muddle. The Democratic Electors claim to have been elected and cast their vote for B Gratz Brown, but the Governor issued commissions to the Republicans who, of course voted for GRANT.

In the next Iowa Legislattre there will be a Fawn a Bullock, two Foxes, and three Ducks.

THE WEEKLY EVENING MAIL.—This is the title of a splendid Family paper published by ROBERT JOHNSTON, 34 Park Row, New York. Its Editor is J. M. BUNDY, an able, rich and racy writer, making each article useful, sensible and interesting. Each issue contains a variety of attractive and original correspondence from all parts of the world. In its Literary and Art departments it takes rank with the best papers of the country. It always has a good story. And its Fashions and Agricultural Departments are well conducted. Price only $2,50 a year. Send for it.

The funeral of HORACE GREELEY took place in New York on last Wednesday. It was attended By the President and Vice President of the United States, by Governors and high officials, by journalists from many States, and by thousands of citizens. It was no doubt the largest funeral cortege ever witnessed in the United States or elsewhere—the highest compliment that could be paid to the worth of the deceased. It is estimated that over fifty thousand persons called to take a last look at the body while it lay in state.

While "Liberalism" as a party organization was a total, dead failure, it has nevertheless accomplished a work that will give it a place in history. It forced the Democratic party to publicly avow a death bed repentance on the subject of slavery and the political rights of the colored man; it compelled it to disavow its old position on the question of State Rights and Secession; and it obliged it to openly accept all the results of the suppression of the Rebellion. No matter what the motive, it was through "Liberalism" that all this was accomplished.

Some of the leading Democrats of the West appear to foster the insane hope of a future for the Democratic party as an organization. They imagine that they have gobbled up the Liberals. But the latter enter a timely protest. They insist that the Democratic party must go into liquidation, its organization must be utterly abandoned, and its name must perish. Unless this is done they say their paths must diverge and they are co-laborers and fellow-travelers no longer

The Electoral College met at Raleigh on Wednesday last, and cast the vote of North Carolina for Grant and Wilson. J. B. Neathery, Esq., was appointed Secretary to the College, and W. B. Glenn, Esq., of Yadkin county, was selected messenger to convey the vote to Washington.

THE NEW YORK TRIBUNE.—We call attention to the Prospectus of the *New York Tribune* on our fourth page. This paper is so well known that it needs no word of commendation from us.

More than ordinary sympathy is felt for Miss IDA GREELEY, who, in one short month, has lost her father and mother, and whose betrothed went down in the ill fated Missouri.

Hon. R. P. DICK having resigned his position as Associate Justice of the Supreme Court of this State, His Excellency Gov. CALDWELL has appointed Hon. THOMAS SETTLE to fill the vacancy.

The President has appointed WARD HUNT of Utica N. Y. Judge of the Supreme Court, to fill the vacancy caused by the resignation of Judge NELSON.

New Books, Periodicals &c.

THE ALDINE FOR DECEMBER.—The Christmas number of this superbly illustrated periodical is far in advance of its predecessors, good as they have been. While the reading matter is good, as usual, it is overshadowed by the extraordinary pictorial attractions. There are forty specimens of exquisite workmanship in woodcut printing on sumptuous paper, and yet is merely one month's offering. Among so many it is difficult to select any particular one as worthy of special mention, but we must express our admiration of the picture of the Infant Jesus—so fitting a subject to open this Christmas volume.

The other plates are: A Street Scene in Cairo, (tint); The Guide Board Knesing: After the Storm, Schenck; Christmas Visitors, Guido Hammer; God's Acre; Moose Hunting; Good Bye, Sweetheart, (full page); The Ornamental, Deiker; The Useful, Deiker; The Death Chase; The Advance in Winter; Keeping House, John S. Davis, (tint); Ye Limped Springs and Floods; Then Fare Thee Well, My Country, Lov'd and Lost Picking and Choosing, Eeckmann; Caught at Last; At Home; The Fisherman's Family; Here, Chick! Chick! Sport; The Pets; Enjoyments; Morning; Out of Doors; Evening; In Doors; After the Storm, a Calm, (four scenes); For the Master, Offterdinger; It Oft'times Happens that a Child; Which in Infancy Lisped; Is the Solace of Age; An Artistic Evening; The Naughty Boy, John S. Davis, (tint).

The Aldine is published by James Sutton & Co., 58 Maiden Lane, New York. at $5 per annum.

During the coming Winter, in order to facilitate business coming before him as much as possible, the President will devote from 10 to 12 o'clock of each day, except Sunday, to Senators and members of Congress, and from 12 to 2 o'clock of each afternoon, except Tuesdays and Fridays, when Cabinet meetings are held, he will receive by card. The business hours of his office will be from 10 o'clock a. m. to 3 p. m.

The most satisfactory bet for all parties concerned, was that made on the election in Bridgport: If Grant was elected, the young man won the lady; and if Greely was elected, the lady was to have the young man. The young man won the bet, and it is stated on authority of the young lady herself that she is perfectly willing he should have the prize.

CORRESPONDENCE

The Opening Session of Congress.

Washington, D. C., Dec. 2d, 1872.

The opening of Congress to-day was expected to be one of the most interesting of late years. Hundreds of people who had watched with interest the great political contest of the Summer and Fall and seen the sturdy blows given and received by the leaders of the opposing parties, were moved with a curiosity to see how those political chiefs would greet each other now that the war-paint has been washed off, and they meet again within the halls of Congress. The bright sun and mild air, so much in contrast with the severe weather of the past few days, made a gratification of this curiosity pleasurable, and crowded galleries looked down upon either House when the hour of noon arrived, and the last session of the XLIId Congress began. Those who went to the Senate expecting to witness anything like a scene in the meeting of the leaders of the late opposing hosts were disappointed. One after another the Liberal Republicans, Grant men, and Democrats, came into the Chamber, each with a smile upon his lips and a cordial greeting for the other. The lion and the lamb laid down together. Senators, who had dealt the hardest blows upon Mr. Sumner's head, gathered about his desk to congratulate him upon his improved health, and, for the time at least, the bitter hate toward Schurz and Tipton, which seemed to have taken possession of the majority of administration Senators, appeared to have been forgotten. One of the Liberal Republicans, who expected a reception of scowls and cruel jokes, remarked, after the adjournment, "Why, it was just as it always was to-day." The only coldness that was allowed to show itself in public was that with which the senior Senator from New York received the hand of his colleague, politely extended to him, and then returned, without speaking, to his conversation with some other person. Altogether, the manner in which the Senators met to-day seems to point to a cessation of political hostilities and a period of good, honest, hard work upon the legitimate business now before Congress.

The hall of the House of Representatives, for an hour before the time of meeting, presented an animated scene. There was the usual lively and general hand-shaking that precedes the opening of a session, in which members, clerks, doorkeepers, correspondents and lobbyists participated. A number of members elect to the next Congress were present, eager to survey the field of their future labors. The Secretaries of War and of the Navy, the Commissioner of Internal Revenue, and several other officials, were in the throngs that flowed in currents up and down the isles, or formed quiet eddies in the corners for more leisurely greeting and chatting. The three Liberal Republican who took such a prominent part in the late campaign, Banks, Blair, and Farnsworth, appeared to come in for their full share of cordial welcome Indeed, political differences did not in any case appear to chill the warmth of greeting.

Clerk.

The printer boy who, in 1814, set up in the Baltimore *American* the manuscript of Francis Scott Key's poem, "The Star Spangled Banner," still lives, in full vigor, being none other than Samuel Sands, the editor of the *American Farmer*

The Raleigh *News* says: The following officers were elected for the Grand Lodge of F. & A. Masons of North Carolinia, Wednesday night for the ensuing year: G. M.—John Nichols; G. S. W.—C. A. Cilley; G. J. W.—Robt. W. Hardie; G. T.—Wm. E. Anderson; G. S.—D. W. Blain.

Legislature.

The Senate has been busy for the past week, Mr. Grandy has introduced several bills; one entitled an act to incorporate the New York and Charleston Rail road Company, and another to encorporate the N. C. Construction Company.

In the House a number of bills have been reported and referred. Mr. Godfrey presented bills to incorporate the Security Express Co. and the Northern and Southern Telegraph Co. A resolution was addopted asking our representatives in Congress to use their influence to have the revenue laws so amended as to do away with assessors, and have such taxes due the U. S. Government, by virtuee of such laws collected by the sheriff of the several counties of the State.—The bill has passed authorizing to all Sheriffs who have brought convicts to the Penetentiary for re-imbursing incurred by the said Sheriffs in transporting the said convicts.

Both Houses have agreed to take a recess from the 18th, inst. to the 15th, of January.

Congress.

The Senate has got through with the usual amount of business.

Mr. Sumner asked, on account of ill health, to be excused from services on any committee.

The following resolutions were adopted:

Resolved, That the Committee on Finances be instructed to inquire what legislation is necessary to releive the present stringency of the money market, the propriety of providing for an additional issue of legal-tender notes, and all matters connected therewith, and report by bill or otherwise at as early a day as practicable.

The House the past week has been busy. The Credit Mobilier bribery business was brought up by Speaker Blaine, who put Mr. Cox in the Chair, and, going down to the seat he used to occupy as a member, made a five minutes' speech in favor of a searching investigation. He said that in asking Mr. Cox to take the chair that he had put no restriction upon him except that he should appoint a committee with a majority who were not his (Mr. Blain's) political friends. Mr. Cox named his committee as follows: Messrs. Poland, Banks, Beck, Niblack and McCrary—two Republicans, one liberal Republicans, and two Democrats.

Mr. Dawes offered a resolution upon the death of Horace Greeley, giving full recognition to the purity of Mr. Greely's character and the grandeur of his aims, and expressed, all the better for its brevity, the sense of loss felt by all. Bills were introduced to incorporate the banking association with the capital of $100.000,000 under the style of governors and managers of the Exchequer of the United States, and giving General Mead's widow a pension of $2000. Mr. Dawes, from the Committee of Ways and Means, reported a bill abolishing the offices of assessor and assistant assessor of internal revenue, and transferring their duties to collectors and deputy collectors. Amendments were agreed to fixing the time for the bill to go into operation on July 1st. 1873, and requiring the collectors to give additional bonds for their new duties, and the bill was passed.

A Main breach-of-promise suit, fourteen years old, terminated by the death of both parties.

The Litchfied *Sentinel* says: "The new license law is about as well observed in this village as the Ten Commandments are in Washington."

A poor king must be his Dutch majesty William H. They say that his individual notes can be purchased at Amsterdam for one-half their value.

The first Russian newspaper was published in 1703. Peter the Great not only took part personly in its editorial composition, but also in correcting proofs.

There will be only eight members of the next House of Representatives who have served continuously since the XXXVIIIth Congress. Those are Blaine, Dawes Hoopee, Kelley, Randall, Scofield, Garfield, and Elderidge.

If the Columbus *Journal* does not find that it has opened a bloody chasm for itself by this bit of sarcasm we shall be mistaken: "In Philadelphia they hang any editor who says anything witty. They havn't hung an editor in Philadelphia for a thousand years."

A DRUG STORE WORTH SEEING

To the Editor of the North Carolinian

During a recent visit to your little City I was among other things attracted by the new Drug Store of Dr. J. N. BUTT, No. 75 Road Street, and I cannot resist the impulse to ask your readers to call and see it, as it is not surpas-ed by any you will meet in the South, not in Baltimore will you find one more elegantly fitted up except its deficiency in gas lights which the Doctor hopes to supply soon. It is a two story brick building, 65 by 27 feet, with dwelling above. The lower story is divided into Dispensing Room, Office, Ware Room and Laboratory. The Store Room is very light. The front being entirely of plate glass, nine pieces 90 inches long, with two doors and one window, glass 56 x 90. The doors being double, shut one upon the other, and when open, as in summer, are folded back into a recess to the wall, making a straight line with the door and an elegant finish. The doors and flanges to the same being of plate glass, 90 inches long, does not impede the light open or shut. The floor is almost even with the pavement and is covered with a carpet of cocoa matting. There are two counters on either side, 12 feet long, beautifully white splendidly finished, and of good design with Italian marble tops. Their ends 8 feet from the doors, pass at right angle to the wall. On the right hand one is a Tennessee Marble Fountain, and on the other an Aquarium of Gold and other Fish. On either side between the door and counter, is a fine silver mounted walnut Show Case, 5 feet high, fastened to the wall a beautiful and attractive ornament to display Fancy Articles, and in the rear a Poison Case of the same kind. Three find silver mounted and one plate glass Prescription Case, with scroll and clock on top, and one fine balance scale adorn the counters. There are over 120 drawers which make a fine display, they are of sweet gum varnished, which is the prettiest wood that could be used. The shelves are supported on iron brackets, at the terminus of which, 3 feet from the ceiling, is a snow white cornice, interlined with two strips of gilt mouldiog. The wall and entire store is pure white except the drawers and when lighted presents a very imposing display.

Last but not least, is the "little jewel" of an office, which is so much needed by every business man. The Doctor is doing, as he tells us, an extensive and lucrative office practice. It is fitted up in fine style, with every modern necessity and examinations are made with as much privacy as in your own home. The Laboratory is not yet finished, but when done will be a very responsible part of the establishment. The Doctor keeps a large stock of gold pertaining to the Drug Trade. VISITOR.

Local and Personal.

The epizootic is taking its departure.

We now have a daily line to and from Norfolk.

Trade is increasing both on Road and Water Streets.

Cotton is still being shipped, but the Corn is moving very slowly.

W. H. SMITH Esq., has removed his office into the new Hotel building.

Several articles prepared for this issue are crowded out by the President's Message.

Senator GRANDY writes that he will be at home to attend Court next week.

We call special attention to the advertisements of our townsman W. H. CLARK Esq.

Court here next week. Our friends from the country will find our latch string out.

We are happy to see improvements being made in different parts of the City. Keep it moving—moving.

BRADFORD & FEARING have commenced work on their new building on the vacant lot South of Dr. BUTT's old Drug Store.

Our town the past week has so steadily pursued the "even tenor of its way" that there is but little in the line of local incidents to chronicle.

A patron from Edenton writes: "I was much pleased with the job printing you sent me." Our faithful foreman Mr. RUTTER spares no effort to give entire satisfaction. He not only endeavors to do all his work in good taste and in good order but to do it promptly. And this is being appreciated by the public. Busines men can't tolerate disappointments.

The kind words of endorsement sent us from different parts of the District are gratifying and encouraging. The political campaign is closed. We now enter another—a campaign for Development and Progress, and we hope to receive, indeed we earnestly desire the continued cooperation, sympathy and aid of all who feel that the vast resources of this section ought to be opened up and its great material interests fostered and advanced. While we realize that the most potent agency for all this is the press we feel that it cannot accomplish what onght to be done unless sustained by the intelligent people.

A public meeting is called at the Court House in this City on Monday next at 3 o'clock P. M. for the purpose of forming an Immigration Society for the Albemarle District. This meeting will be participated in by our citizens generally. It is a move in the right derection—indeed one of the most important steps yet taken to promote the great material interests of this section. Eastern Carolina possesses advantages and offers inducements to immigrants over all other localities but as yet comparatively few abroad know anything about them. One of the objects of the contemplated organization is to devise practical methods of advertising the facts and of inducing the tide of immigration in this direction. Let all who feel an interest in the subject, attend the meeting.

The following notice is clipped from our sprightly cotemporary the Norfolk *Day Book*. We cordially endorse his statements, but at the same time we desire that he should not forget that our genial friend Capt. W. A. HARNEY, at this end of the line, is one of the pillars of the Company. His urbanity and business tact have added greatly to its interests. Indeed his services are indispensible. Below is the article referred to:

DISMAL SWAMP STEAM TRANSPORTATION COMPANY.—This reliable and well conducted company under the able and efficient executive ability of W. B. Rogers, has prospered beyond every measure of its most sanguine friends; now the demand upon the line necessitates one boat daily, which has required the purchase of two new steamers particularly adapted to the requisites of the route. The line is now composed of the following steamers:

Thomas Jefferson	Capt Conklin
Elizabeth City	" Sykes
Harbinger	" Slaight

Wm. Gates, no captain assigned. With the facilities at command, and the large inducements offered the line will be extended to Hertford, Woodville, and Scuppernong river, and to all the tributaries of the Sound region of North Carolina, if deemed expedient.

Shippers will find it to their interest to ship by this line, if they desire prompt attention and reliability; the agent at this end is Captain Harry Roberts, a prompt and careful man in all his transactions and one who is fully capable of filling every measure of satisfaction in all business entrusted to his care; we commend the line as a public carrier fully capable of giving general satisfaction to all who patronize it. The passenger accommodations on board of the Steamers are all that comfort and safety can desire, therefore those bound to Elizabeth City, Hertford, Woodville, or Scuppernong would discuss their comfort by calling on Capt. Roberts, the agent here, or either freight or passage.

J. M. MATHEWS, Watchmaker and Jeweler, has changed his base. He has left the Guirkin building and hung out his shingle one door South of Salomonsky's. Success to him.

Dr. D. T. KREBS Physician and Surgeon in charge of the Poor House informs us that during the present year there were but 8 inmates. Three of them died, to wit:

THOMAS OVERMAN, aged 82, of old age; SMITH JOHNSON (col.) age 75, of Apoplexy, and JACK LISTER (col.) age 55, of Dropsy and Abscess of Liver. There are now but 5 inmates.

The wise farmer will not delay making his labor contracts for the next season, till the last moment. It is well, as far as possible, to keep the same hands from year to year, where they have conducted themselves properly and proved reasonably trustworthy. New hands will need some special training to adapt them to any peculiarities of management or working that you may have instituted. Straight forward dealing, firm guidance, fair wages, prompt payments, and close personal supervision, are among the means of ensuring success with our laborers.

LOCAL PORT-FOLIO.

"Belle mettle"—a young lady's temper. The feast of imagination—having no dinner, but reading a cookery book. In season—mince pies. A paper containing many fine points—the paper of needles. But a paper all the people like—the NORTH CAROLINIAN. A neat piece of work—the office counter in the new Hotel. The best things for dinner—an appetite and something to eat. Hard to break—the chain of habit. Sound advice—postpone nothing you can do now. Don't forget—to pay your subscription.

Business Locals.

Going—going. What? Why we mean those splendid New Goods at Fowlers.

Let those who come to Court next week remember that the place to get good boarding is at Fulmers on Water Street.

The Holidays are coming and Lowernburg & Jacobs of Norfolk Va., say *let them come*, aye, and let all their North Carolina friends give them a call and select goods from their stock suitable for the season.

Wanted.

A woman, *well recommended*, to perform the general duties of a *cook* for a family (not large) living in Baltimore. Must cook, wash and iron. Will pay expenses to Baltimore, and $6.00 per month for the first three months, and $7.00 per month afterwards, if suited. Apply to

Flower Seeds Free.

In giving publicity to the following from Mr. W. B. Dimon, Jr., Brooklyn N. Y., we have no desire to injure the trade of Seedsmen who advertise with us, but trust it will ere long increase their business, as it *immediately* (if not immensely) will that of the person making the offer; —"Having gathered last season a large amount of choice Double Dwarf Rocket, Tri-Colored and Chinese Larkspur, etc.; also choice Pink and Sweet William Seed, in large excess of my individual need, I will furnish a package free of charge, to any of the subscribers of this Paper who will send me their address upon an envelope, with a postage stamp to pay the return postage."

"I know that my Redeemer liveth."

On Christmas night of 1871 the writer of this article sat beside Horace Greeley at Steinway Hall. New York City, where was being given Handel's great oratorio "The Messiah." During the major part of the performance he sat apparently lost in thought, if not in doze, and seemingly oblivious to all that was going on.

But when Miss Kellogg appeared and sang the great soprano. "I know that my Redeemer liveth, he raised up, his face was suffused with joy, his bright eye was dimmed with a tear, and he listened with thtsteady and intense earnestly so peculiar to him when interested.

When it was finished no hands more loudly applauded than his, no face beamed forth such great satisfaction and he murmured to himself those grandest of all the words of the world, 'I know that my Redeemer liveth." Then again came the absent preoccupied look, nor did it change until Miss Sterling sang the contralto recitative. "Then shall come to pass that which is written: Death shall be swallowed up in victory," when the same joyous look of satisfaction lighted up the face no one could look upon and not love.

A few days ago he turned wearily on his bed of pain, and the old light came back as he muttered, "I know that my Redeemer liveth;" a few hours more, and "it is done." Death was swallowed up in victory—the victory of a life-time, fighting for the right over wrong; for truth over error; for reason over prejudice; for peace and love over war and hate—the victory of a well-spent life, entitling a soul to life eternal after death. This is his victory, and he needs no eulogo or monument. The heart-beat of the nation is the one, the imprint of our footsteps on the face of time the other—more lasting than marble, more enduring than brass.—*Troy Press.*

A large number of Sampson county men were in Raleigh during the past week in attendance on the Federal Court, on the alleged charge of Ku Kluxing. Nearly all the cases were continued.

The case of United States, vs. Hon. Josiah Turner, was called in the Federal Court, but his Honor Judge Brooks, stated that he would prefer the postponement of the case till the arrival of Judge Bond.

THE GREAT PICTORIAL ANNUAL.—Hostetter's United States Almanac for 1873, for distribution, gratis throughout the United States, and all civilized countries of the Western Hemisphere, is now published and ready for delivery, in the English, German, French Norweigian, Welsh, Swedish, Holland, Bohemian and Spanish languages, and all who wish to understand the ture philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter and professional man; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive NATIONAL CALENDER.

The nature, uses and extraordinary sanitary, effects of Hostetter's Stomach Bitters, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable receips for the household and from humorous anetdotes, and other instructive and amusing reading matter, original and selected. Among the Annuals to appear with the opening of the year, this will be one of the most useful and may be had for the asking. The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neigborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

Beware of Counterfeits!

JOB MOSES' SIR JAMES CLARKE'S FEMALE PILLS

are extensively COUNTERFEITED. *Dishonest Druggists endeavor to sell the counterfeits to make greater profits. The genuine have the name of* **Job Moses** *on each package. All others are worthless imitations.* The GENUINE Pills are unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. They moderate all excesses and remove all obstructions, from whatever cause.

TO MARRIED LADIES

they are particularly suited. They will in a short time bring on the monthly period with regularity; and although very powerful, contain nothing hurtful to the constitution. In all cases of Nervous and Spinal Affections, Pains in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, they will effect a cure when all other means have failed. The circulars around each package give full directions and advice, or will be sent free to all writing for them, sealed from observation.

N. B.—In all cases where the GENUINE cannot be obtained, One Dollar enclosed to the Sole Proprietor, JOB MOSES, 18 Cortlandt St., New York, will insure a bottle of the *genuine*, containing Fifty Pills, by return mail, *securely sealed* from any knowledge of its contents.

SPECIAL NOTICES.

A Warning.

There is no case of Consumption that did not Commence with a cough. Therefore the slightest Cold or Cough should receive immediate attention. Use at once the great remedy of George D. Tutt's Expectorant, and thereby save years of suffering; perhaps life itself.

AUGUSTA, Ga., Dec. 31 1870.

Dr. Wm. H. Tutt:

Dear Sir—My little son, aged about three years was attacked with pneumonia last winter, which left him with a violent cough that heard all within about a month's use of the one bottle which I procured of you and your valuable Expectorant. I had tried most every kind of medicine recomended for coughs, but none did me good until I tried your Expectorant, one bottle of which removed the cough entirely. With many thanks for your valuable preparation.

I am yours truly,
JOHN M. WEIGLE.

A LARGE AND VALUABLE FARM FOR SALE.

The subscriber desiring to lessen his farming operations, offers for sale privately until the 17th December next, and if not sold at that time, at public auction on the premises at 12 o'clock M. that valunble and productive plantation, a part of the far-famed "Turkey Ridge Body" known as the Whedbee place, containing by estimate One Thousand and Ninety acres. This farm is one of the most productive in North Carolina, and in the hands of an enterprising and industrious farmer could be made a most profitable and paying investment. It is beautifully adapted to all the crops of this climate, corn, wheat, oats, cotton, peas, potatoes, fruits, clover and the grasses generally. It is convenient to navigation, the main barn which is nearly in the centre of the farm being only two and a half miles from a landing on Perquimans River. The buildings are in good order, and there is a sufficiency for eight or ten families to be comfortable, with an abundance of fire wood and rail timber. The fences and ditches are in complete order, nearly every ditch on the premises either having been trimmed and cut out this fall, or now being done so. In addition to the open land, there is a large Deadening of One Hundred and Fifty acres ready to come into cultivation, and in quality not to be surpassed by any in the State. The owner who resides about five miles below it in Durants Neck will take pleasure in showing it and pointing out its advantages to any parties who may desire to examine it until the day of sale.

TERMS. Three Thousand Dollars Cash and, the remainder in equal installments of one, two three and four years with interest at 8 per cent., and the title retained until the money is paid.

After the sale will be offered Twenty (20) mules and horses besides cattle, hogs, farming otensels, corn, fodder, &c. Terms made known un day of sale.

FOUTZ'S
CELEBRATED
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and in a short time to a considerable skeleton has a handsome and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them much fatter.

In all Diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill as above, diseases will be effectually prevented. If given in time, a certain preventive and cure for the Hog Cholera.

New York Tribune. 1873.

Now, as heretofore, THE TRIBUNE strives to be first of all and preeminently a newspaper.

France a Republic—England and Germany gradually permeated with Republican ideas—Spain swaying in the nerveless grasp of a rule too good for a King and too weak for a Republican, who is unable to govern the great island that blocks the entrance to our Gulf of Mexico, and equally unable to give it up—the German-speaking people agitated by a new Protestantism, separating from the See of Rome on the dogma of Papal Infallibility and assuming to recognize the "Old Catholics"—the whole Continent pervaded by the intellectul ferment that comes of the conflict between old ideas, philosophical, theological, material, and the advances of Physical Science—Russia and Great Britain running a race for the final gains that shall determine Asiatic supremacy—China seeming ready to abandon her advances and reclose half opened gates—Japan abolishing fendalism and inviting Western civilization to irradiate Western commerce to enrich her long-hidden empire—such are phases of the news from abroad which the mails over all Continents and the wires under all Seas are daily bearing to us. With able and trusted Correspondents in the leading capitols, and wherever great changes are in progress, THE TRIBUNE aims, at whatever cost, to lay before its readers the most prompt, complete, and popular presentment of these diverse and conflicting movements,—through all of which, as it fondly trusts, the toiling masses are everywhere struggling up toward large recognition and a brighter future.

At home the struggle for Freedom seems over. The last slave has long been a citizen: the last opposition to emancipotion, enfranchisements, equal civil rights, has been formally abandoned. No party, North or South, longer disputes the result of the War for the Union; all declare that these results must never be undone; and, with a whole people thus united on the grand platform of All Rights for All, whereto our bloody struggle, and the prolonged civil contest that followed, have led us, the Republic closes the records of the bitter, hateful Past, and turns peacefully, hopefully, to the less alarming because less vital problems of the Future. To whatever may elucidate the general discussion or action on these, THE TRIBUNE gives amplest space and most impartial record. Whatever parties may propose, whatever political leaders may say, whatever officers may do, is fairly set down in its columnes, whether this news helps or hinders its own views. Its readers have the right to an honest statement of the facts; and this they always get.

But as to its own political principles, THE TRIBUNE is of course, hereafter as heretofore, the champion of Equal Rights, irrespective of Race, Nativity, or Color. It stands inflexibly by the Amendments for the permanent security of those Rights, which have been solemnly incorporated by the People, in the Constitution of the United States. Independent of all political parties, it endeavers to treat them all with judicial fairness. It labors to purify the administration of Government, National, State or, Municipal affairs, take the lead in this work, it will therein give them its cordial support, But it can never be the servitor of any political party; nor will it surrender or even waive its right to criticise and condemn what is wrong, and commend what is right in the action of any parties or of any public men.

NOW, as always, THE TRIBUNE labors with all its heart for the promotion of the great material interests of the country. The progress of Invention and of Labor Saving, the developement of our resources, the preservation of our Land for the Landless and its rapid subjugation to human wants, utilization of our vast underlying Ores, the extentions of the faculties for bringing Producer and Consumer nearer together,—whatever tends to swell the ranks, increase the knowledge and better the condition of those devoted to Productive Industry finds mention and encouragement in our colums.

THE WEEKLY TRIBUNE, now more than thirty years old, has endeavored to keep up with the progress of the age in improvement and in enterprise. It devotes a large share of its colums to Agriculture as the most essential of human pursuits. It employs the ablest and most successful cultivators to set forth in brief, clear essays their practical views of the farmer's work. It reports public discussions which elucidate their work; gathers from every source agricultural news, the reports of the latest experiments the stories of the latest successes and failures, and whatever may tend at once to better Agriculture, and to commit it as the first and most important of progressive Arts; based on natural science.

There are hundreds and thousands engaged in diverse pursuits who own or rent a "place,,, and give some portion of their time to its culture and improvement. THE WEEKLY TRIBUNE shows them how to make the most of their roods and their hours, both by direction and exmple. No information equal in quality and quantity can be elsewhere obtained for the price of this journal.

THE WEEKLY TRIBUNE appeals also to Teachers, Students, and persons of inquiring minds' by the character of its Literary contents, which includes reviews of all the works proceeding from the master minds of the Old or of the New World, with liberal extracts from those of especial interest. Imaginative Literature also claim- attention, but in a subbordinate degree. "Home interests" are discussed weekly by a lady specially qualified to instruct and interest her own sex' and the younger portion of the other. No colum is more eagerly sought or perused with greater average profit than hers. The News of the Day, elucidated by brief comments, is so condensed that no reader can deem it diffuse, while giving sufficiently in detail to satisfy the wants of the average reader. Selections are regularly made from the extensive correspondence of THE DAILY TRIBUNE from every country, and its editorials of more permanent value are here reproduced. In short, THE WEEKLY TRIBUNE commends itself to Millions by ministering to their intellectual wants more fully than they are met by any other journal, while its regular reports of the Cattle, Country Produce, and other Markets, will of themselves save the farmer who regularly notes them far more than his journal's price.

For the family circle of the artisan, THE WEEKLY TRIBUNE has no superior, as is proved by the hundreds of thousands who, having read it from childhood, still cherished and enjoy it in the prime and on the down hill of life. We respectfully urge those who know its worth to commend THE WEEKLY TRIBUNE to their friends and neighbors, and we proffer it to clubs at prices which barely pay the cost of paper and press work.

NEW-YORK SEMI-WEEKLY TRIBUNE,

is published every Tuesday and Friday, and being printed twice a week, it contains nearly all the important News, Correspondence, Reviews, and Editorals of The Daily, including everything on the subject of Agriculture, and much interesting and valuable matter, for which there is not sufficient room in THE WEEKLY TRIBUNE. THE SEMI-WEEKLY TRIBUNE also gives, in the course of a year, THREE OR FOUR of the

BEST AND LATEST POPULAR NOVELS,

by living authors. The cost of these alone, if bought in book form, would be from six to eight dollars. Its price has been lately reduced, so that Clubs can now secure it at little more than the cost, to single subscribers, of THE WEEKLY. Nowhere else can so much current intelligence and permauent literary matter be had at so cheap a rate as in THE SEMI-WEEKLY TRIBUNE.

OF VALUABLE

NORTH CAROLINA LANDS,

FOR SALE BY

GEORGE D. POOL.

Real Estate Agent,
ELIZABETH CITY, N. C.

In presenting my list of lands and other properties for sale, I would say that no section of the United States offers such inducements for capitalisis and emigrants, as this section of North Carolina. In longevity and healthfulness, it will compare favorably with any where and in easy and cheap transportation of products to market, in pleasantness of climate, in the sociability of the people, in great fertility, and durability of soil, no section can equal it.

A railroad will soon be built to Weldon, putting this place in direct communication by Rail, with the whole United States. This, together with our great fishing farming and manufacturing interests, and certain early completion of already projected works of improvement for putting in nearer, cheaper and easier communication with the Ocean, will render this one of the most important commercial, and manufacturing points on the Southern country.

A Steam Saw and Grist Mill in the town of Nixonton 8 miles from E. City. This Mill has a fine wharf and store attached on deep navigable water, the engine is 40 horse power, and all in good order. It is one of the finest locations to be found any where for custom work, and for getting good saw logs easily and cheaply. Price $4,000 cash.

Adjoining the mill property is 40 acres of fine land on the River, with three houses, all for $1200. Near the same is a good two story dwelling and 13 acres of land for $2.000, and a good one story dwelling, with one acre of land for $300.

Also two fine farms in Pasquotauk county, 10 miles from E. City, within half mile of church, school house and post office. One tract contains about 400 acres, with fair buildings and mostly cleared, and the other contains 300 acres, with good two story dwelling, large barn, and other outhouses, both are offered at $20 per acre, one third cash, balance in one and two years.

Also one other tract in Pasquotank county, containing 116 acres, within one mile of the town with fine buildings, mostly cleared and in cultivation. Price $25 per acre, one half cash, balance in 12 months.

A valuable site for a hotel at Nag's Head, 40 miles from Elizabeth City, and 50 miles from Edenton. This is situated immediately on the Ocean, and is a famous Summer resort for invalids, and those seeking health, comfort, and amusements during the summer months. It is in direct communication by steamboats and railroad with all parts of North Carolina, Virginia, and the North; and is equal in natural advantages to Newport, or Cape May. Visitors flock to this famous summer resort by hundreds and thousands, and a large amount of money can be made by a hotel. A charter has been obtained from the Legislature of N. C., for a joint stock company to build the hotel. There is now an old hotel on the spot, which could be cheaply repaired and bought for $3.000. This hotel, though imperfectly kept, cleared the proprietor last season, over $3.000. For a man or a company, having some capital, this is one of the finest chances to make money at hotel keeping to be found anywhere. The early attention of the public is invited to this property. **Sold.**

A fine steam saw and grist mill at Hertford, the county seat of Perquimans County, N. C., 18 miles from Elizabeth City. This mill has a fifty horse power engine, now in good running, two pairs of best French burr stones, and two upright saws. The house has a brick basement, and the building is large and in good order. There is one and a half acres of land belonging to this property, and a good two story dwelling, and other out-houses. The section of country adjacent abounds in the finest yellow pine, cypress, ash, poplar, and other valuable timber. This property originally cost $15,000, and is now offered at forced sale for the low price of $3.500, $7.00, cash, and the balance in six equal instalments, six months apart each with interest. **Sold.**

A fine farm and fishery in same county. The farm contains 400 acres of the finest land, lies immediately on Albemarle Sound where the water is 12 miles wide, and 18 to 20 feet deep, has got buildings, and fine neighborhood. The fishery is on the farm and goes with it. It has a new seine 2,500 yards long, and all the necessary boats, buildings, &c., (which cost over $15,000 two years ago.) The fishery alone, of a good season, will make from 5 to $10,000 profit to the owner. This property is offered at forced sale for the low price of $20,000, $7,000 cash, balance on easy times.

A store at South Mills, in Camden county, 20 miles from E. City, and 20 miles from Norfolk, lying on the canal where steamers pass daily. A fine chance for merchandize. Store is large with dwelling above containing six rooms, is in first rate order, has office, kitchen, dairy, and other necessary outhouses. Goods to the amt. of $50,000 per annum can be sold here, and at large profits. A splended stand for a country retail store. Price $2,500—one third cash, balance in one and two years.

A valuable tract of land in Camden county, at South Mills, on the Dismal Swamp Canal, lying on the canal for two miles, containing over 900 acres of land—two-thirds cleared, and in a fine state of cultivation, with good buildings, &c.; balance in valuable timber. Price $12,000, one-third cash, balance in one and two years, interest from January, 1871. This is a valuable farm for corn, wheat, and vegetables, and being midway between Elizabeth City and Norfolk, and located where steamers pass by the door daily, is a desirable and cheap property.

A fine farm of 600 acres within six miles of E. City, one mile from navigable water, and the best cotton farm in the State. It is also well adapted to raising corn and wheat. This farm has a splended two-story dwelling upon it, large barn, 40 by 60 feet, a large number of outhouses, by splended trees and shrubbery, is in a strong Union neighborhood, and altogether the most desirable place in the county. A little over one-half of this land is cleared, and the balance is covered with the finest yellow pine, poplar, ash and other timber. Price $30 per acre—one-third cash, balance in one and two years with interest. Title reserved.

Sixteen houses and lots in Elizabeth City, with good dwellings, out-houses, &c. Prices and terms reasonable.

A valuable farm in Perquimans county, N. C. near navigable water. Has a fine dwelling-house with ten rooms, in splended order, with splended barns and stables—all in first rate order. The farm is very productive in corn, oats, wheat, cotton and clover. It is one of the finest farms in the State and is now in good cultivation, contains 585 acres of land, about three-fourths cleared and under cultivation. Price $10,000, one-third cash January 1, next. balance in two equal annual instalments with interest at the rate of six per cent.

A farm of 370 acres 8 miles from town by water, and 12 miles by land, is offered for sale for $10,000 in easy payments. This tract of land lies immediately on the River which is 4 miles wide and washes the farm its whole length on one side, and a branch of the River one mile wide, binds it on one end. The land is well adapted to raising corn, wheat, cotton, oats, peas, &c., lies high and dry, and is susceptible of the highest improvement. Fronting and looking over, as it does, two large sheets of navigable water, where steamers and sailing vessels are constantly passing, carrying freight and passengers to all parts of the country, its location and surroundings, are of the most fascinating and desirable character. There is a fishery on it ready for working a seine 2,500 yards long, and which commands a portion of both streams of water, and can be made immensely profitable. The price charged is low, and the purchase a very desirable one. The buildings consist of a good two-story dwelling and out-houses.

A desirable house and lot in the town of Elizabeth City on the corner of two principal streets, the principal one, and situated in the best business locality in the town. The lot contains about two acres of land, and the buildings consist of a fair dwelling three stories high, containing eight rooms, all in good order, another two story building with four rooms and pantries, dairy, smokehouses, stables, &c. The dwelling has a good cellar under it. There is room on the front lot to erect two good stores, and they would occupy the best stand in the town for merchandize.

A Farm of 200 acres within one mile of Elizabeth City, with good two story dwelling, large barn and stables, and all necessary outhouses, orchard of fine fruit trees, and a large number of ornamental trees and shrubbery around dwelling. This farm is on one of the most public roads in the County—is in a high state of cultivation—has fine and durable fences, &c. Altogether, it is the richest land and most desirable location, anywhere in the neighborhood of the town. Price $6000—one-half cash, balance in easy payments.

KEYSTONE MILL COMPANY'S

PREPARED WHEAT

AND

SUGAR OF MILK.

Patented July 23d, 1872.

A FARINACEOUS FOOD FOR IN-

VALIDS AND INFANTS.

By the peculiar process in which this preparation is made, all the flesh forming constituents—EARTHY and SALINE elements of the grain are retained, with none of the STARCH, all of which being converted into Dextrine. It contains all the Lime, Sulphur, Phosphorus, Iron and Manganese for the animal juices, and Gum and Fecula for respiration and fatty tissue, with the proteine compounds (Gluten, Albumen &c.) from which nerve and muscular tissues are formed.

It is believed by the most intelligent men that much of the *suffering, sickness and mortality* of mankind is traceable to *deficient* or *faulty* nutrition. The same cause may also be assigned the frequent disapointment of physicians in the result of the action of most approved remedies.

We feel sure that this article will supply the deficiency.

Sugar of Milk.

[LACTIN.]

Is a chrystalized sugar, obtained from the whey of cow's milk by evoporation. It is manufactured largely in Switzerland and the Bavarian Alps as an article of food and for medical purposes.

It has been used considerably in England as a non-nitrogenous article of diet in Consumption and other Pulmonary Diseases, and with excelent effect in extreme Irritability of the Stomach, (see Wood & Bache's Dispensatory.)

We manufacture 2 grades :—No. 1, in yellow wrapper, ground coarse, to be eaten as cracked wheat, with cream. No. 2, white wrapper, is ground into Flour for Puddings, Blanc-Mange and Bread.

DIRECTIONS.

For Making Mush with No. 1, Ground Coarce.—Mix four tablespoonfuls of the Wheat with a gill of cold water; rub into a smooth paste; then pour it into a pint of boiling water, stirring briskly, boil for 20 minutes.

To be eaten with rich cream.

For Puddings, &c. use No. 2, Ground Fine.—Mix a tablespoonfnl of the food with a small quantity of cold water rub to a smooth paste; add to one-half pint of boiling water, constantly stirring, and boil about 8 minutes over a moderate fire. Add milk and flavor to taste. For bread, use as ordinary flour.
